Subject: Fee Required for Notice of Intention to Commence Large Mining Operations, Daniels Canyon Pit, M/051/008, Wasatch County, Utah

Dear Mr. Lloyd:

On August 25, 2005, we received your Notice to commence large mining for your Daniels Canyon Pit. In performing a cursory review of the notice, we have assigned a file number M/051/008 for this Large Mining Operation (LMO).

We have a Memorandum of Agreement with the Utah State Historical Preservation Office (SHPO), wherein we have to notify them of any proposed activity in the state. SHPO then reviews the proposal to see if there are any archaeological or historical concerns in the area. We have forwarded a copy of your map to them to begin their review process.

Before we can continue with the review of your LMO, we require payment of the permit fee. Large mines with less than 50 acres of surface disturbance requires an initial \$500.00 annual permit fee, which is due annually thereafter on the Division's fiscal year (July 1-June 30) until the project is completed and you have received written release from this Division and any other land managing agency involved with the project (in this case, Wasatch County).

Please submit the permit fee within the next 10 days or by September 5, 2005, before we continue our review of this notice. A billing statement is attached for this purpose. Failure to provide the fee within the specified timeframe will result in the Division denying your application. Please be advised that **no mining activity is authorized until you have received written acceptance from this office.**
